# NEW HMI for DELTA cleaners

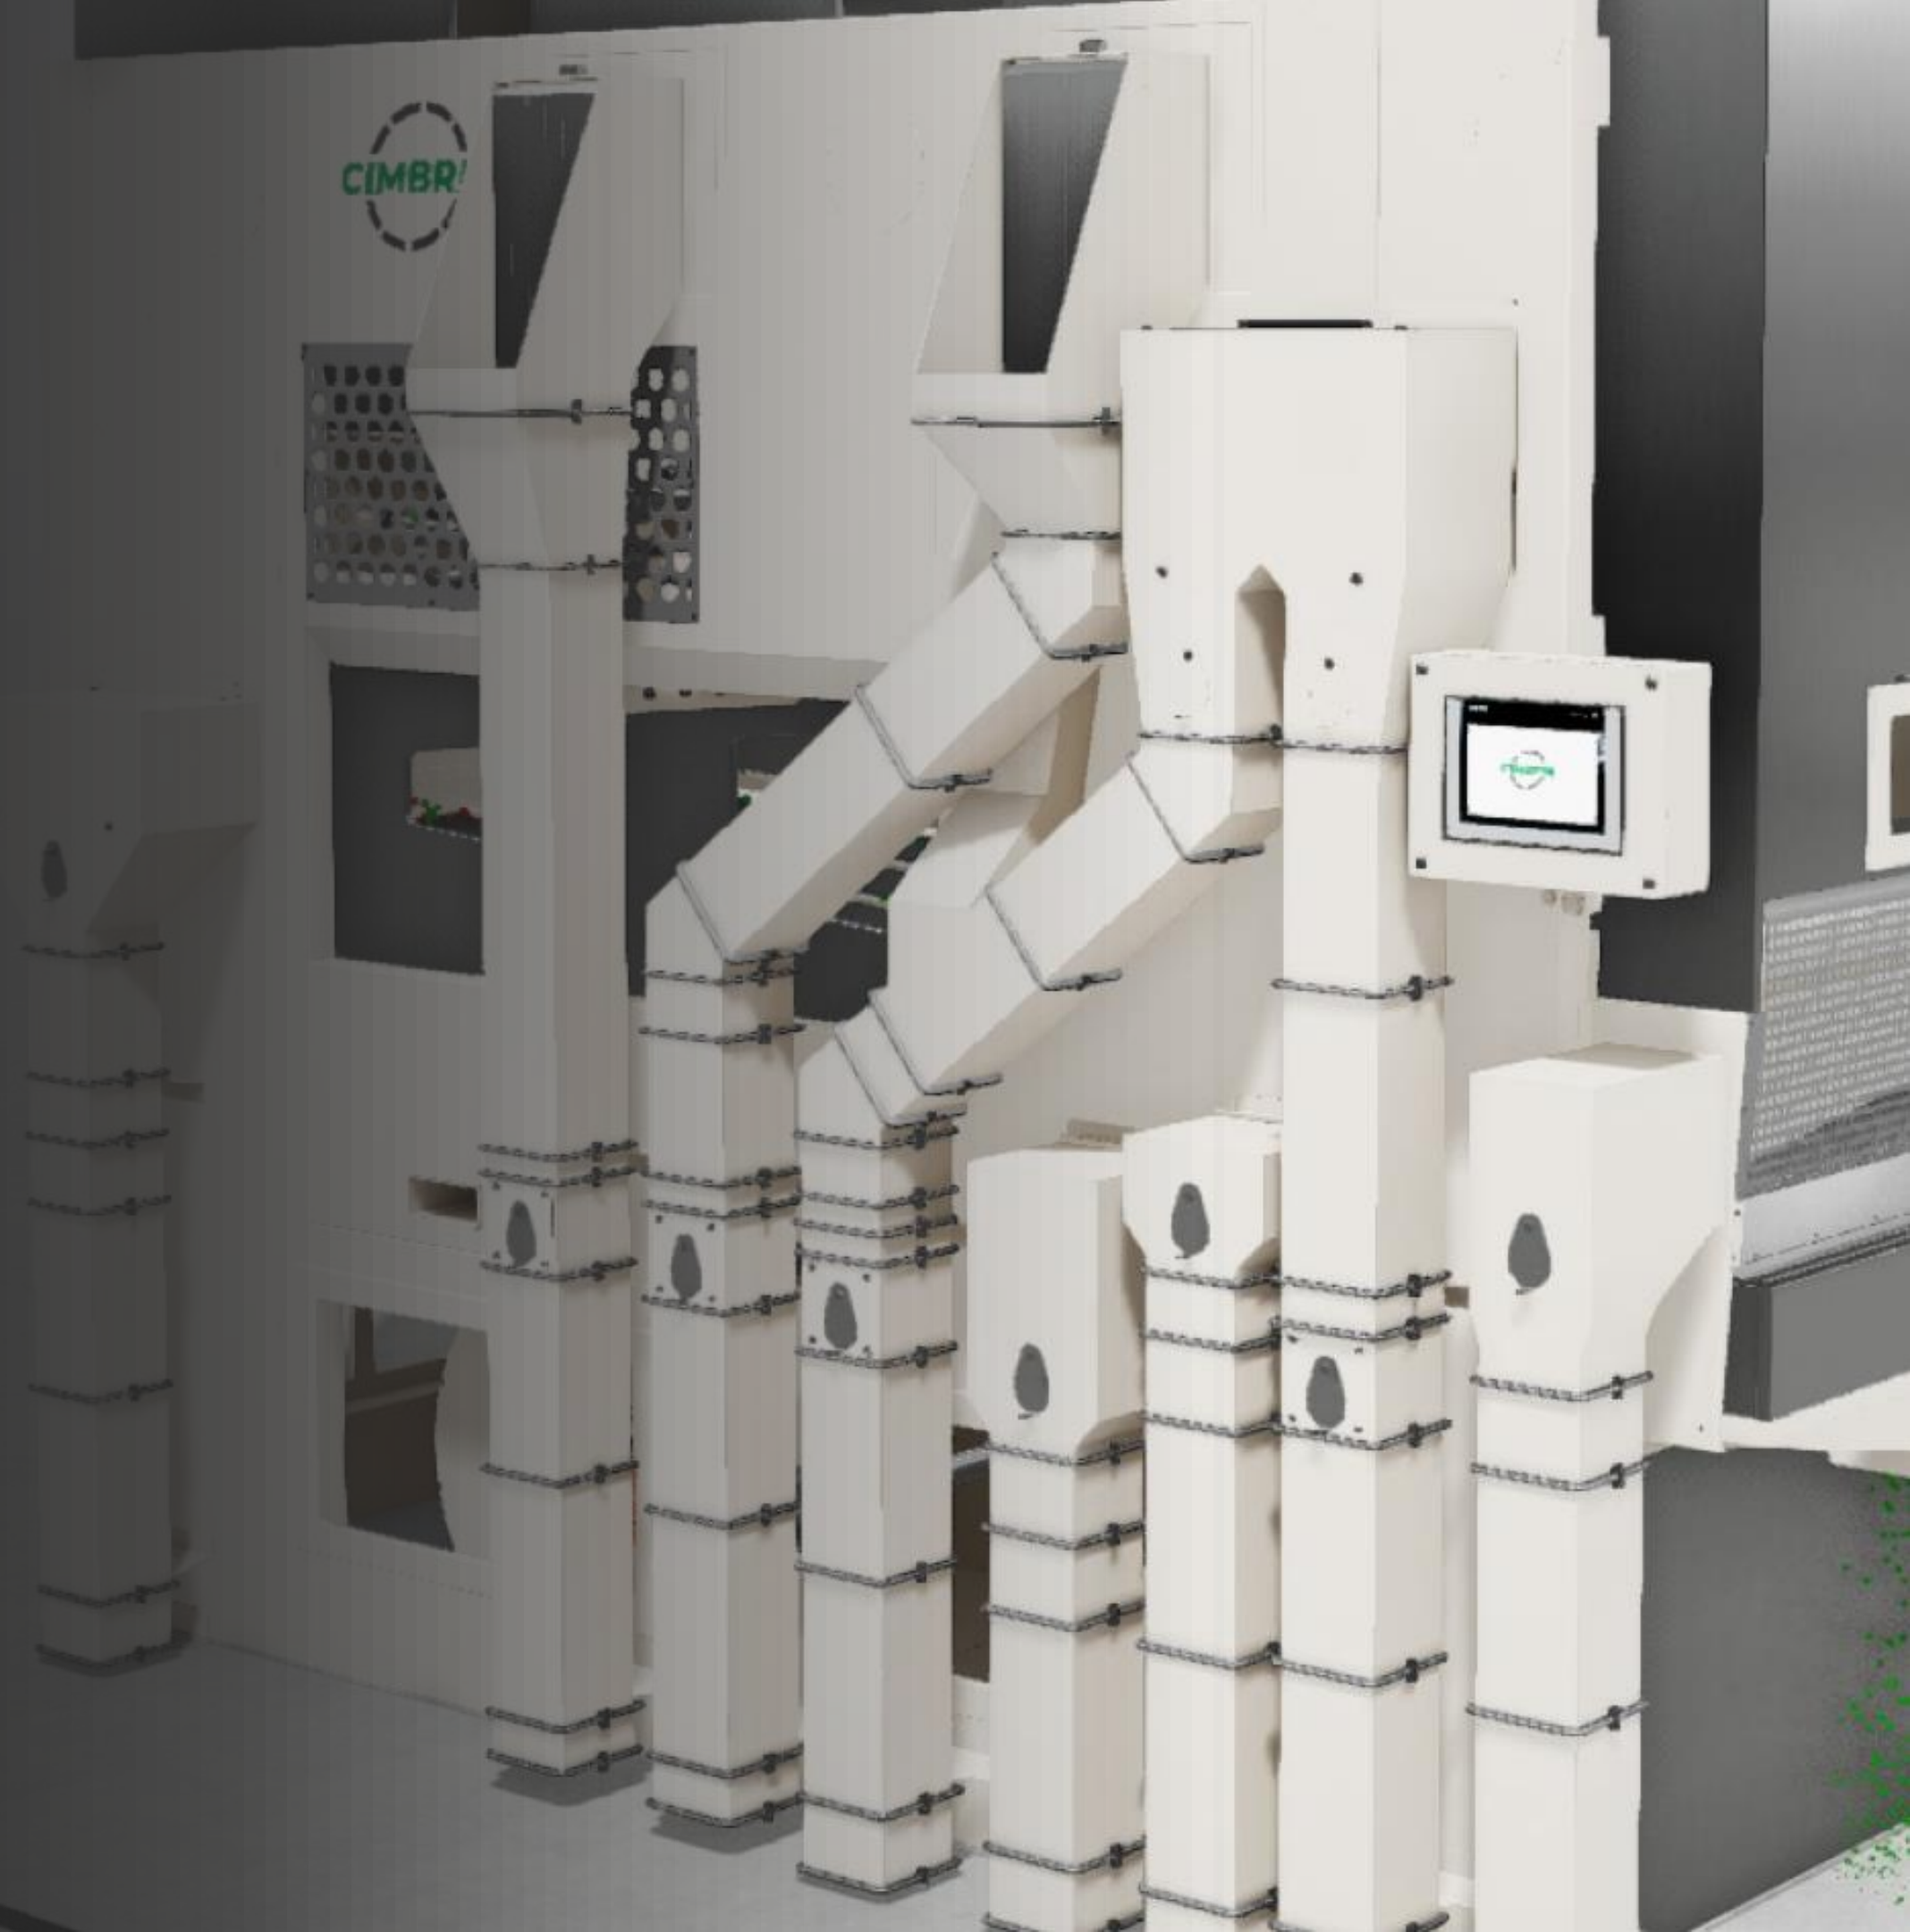

February 2022.

# Brand new HMI Control System

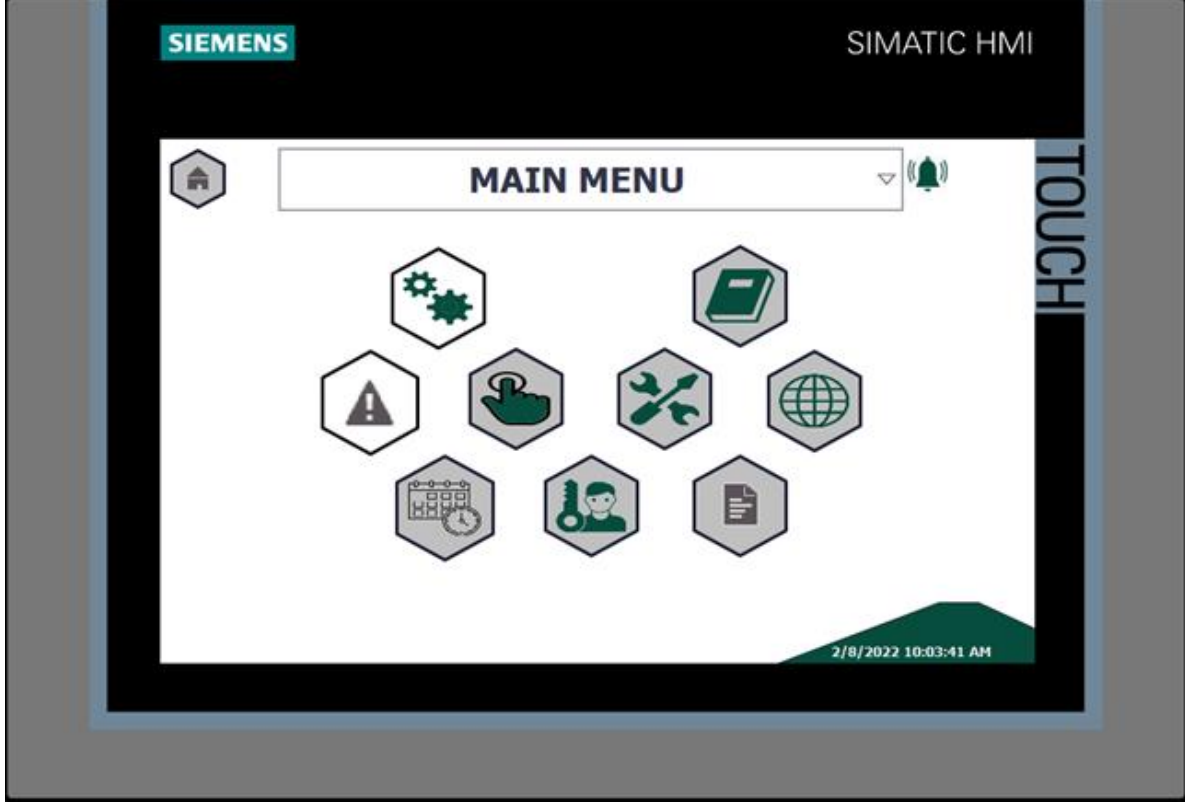

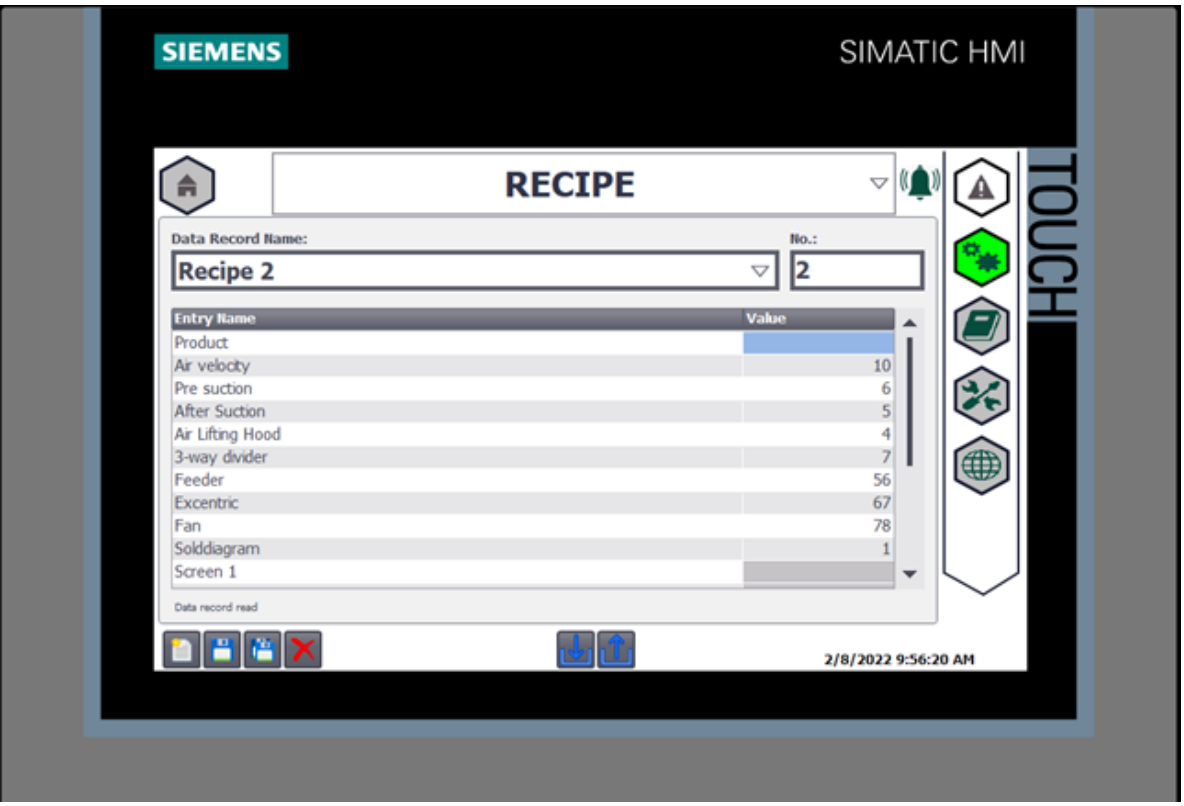

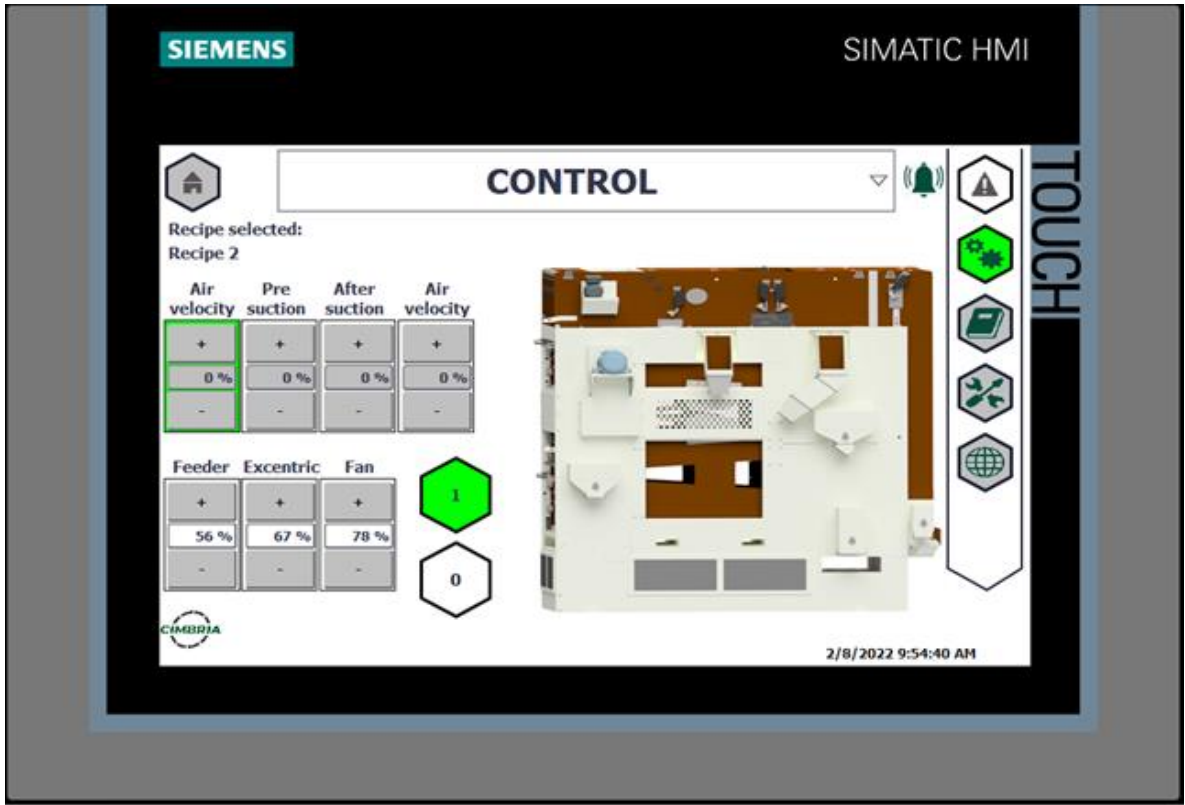

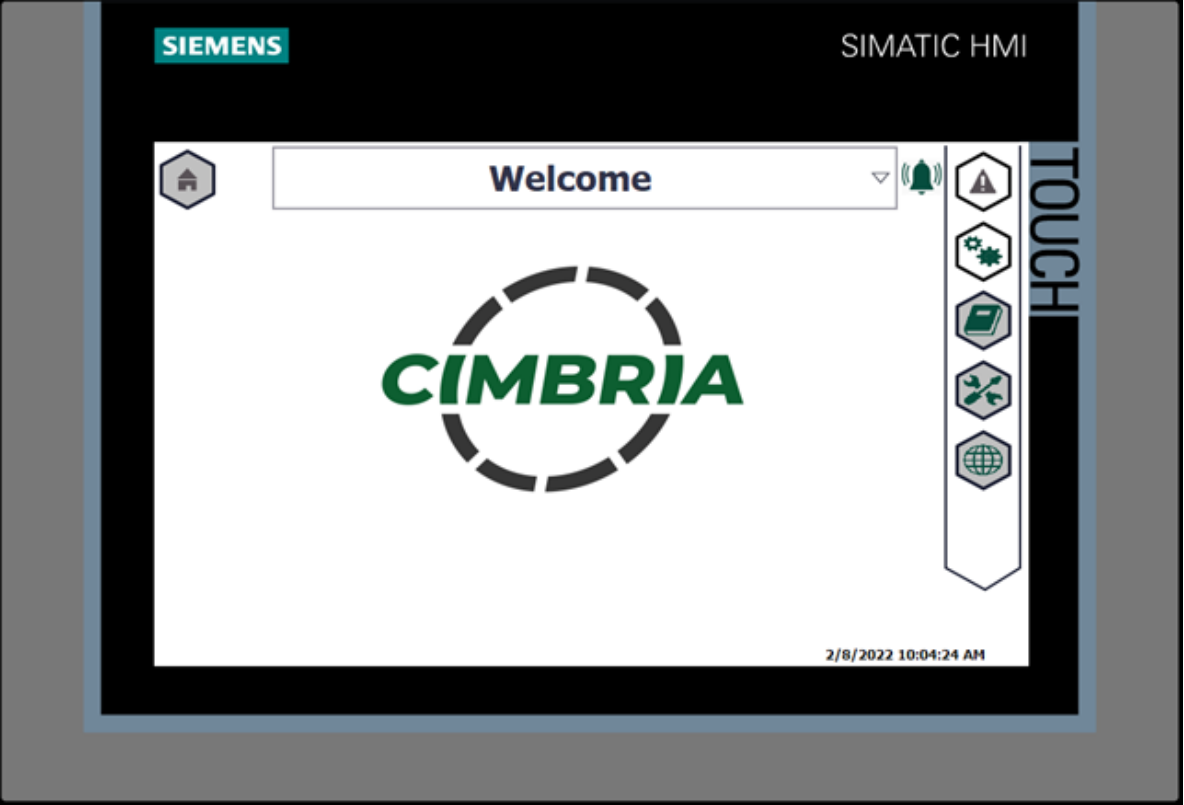

Newly developed HMI for Delta series cleaners. Based on a well proven **Siemens PLC** with different options & features that you will benefit in your production.

The HMI features a **9-inch Touch Panel**, with intuitive functions, such as recipe handling, alarm notifications, maintenance features and a PDF viewer so your manual & spare part list are close by if needed.

The **optional remote connectivity** allows our Cimbria specialist to guide you through any possible challenges you might face.

- Remote connectivity (optional)
- Recipe control
- Alarm notification
- PDF viewer for the user manual
- OPC-UA compatible
