

CHRONOS OML-1060

Upgraded version

Take a leap into automation with the upgraded CHRONOS OML-1060 from Premier Tech, a new generation of compact baggers for low and medium capacities. This innovative entry-level automated bagger is designed to fill open-mouth bags with free-flowing products, offering quick and easy changeovers between different bag sizes or products.

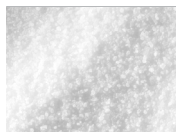

With our latest improvements, the upgraded design provides more flexibility and options to the market. Advantages and Benefits:

- ✓ Smaller footprint
- ✓ Easier to upgrade equipment by incorporating new designs and technology
- ✓ Flexibility to connect with any closing systems
- ✓ New spout design helps to improve capacity to 600-700 BPH
